

Web Cable Plus

The Most Convenient & Affordable Video Converter

Web Cable Plus, a world patented cable-like video converter, is the all-in-one video converter at the most affordable price level. It is equipped with full button control (Up/Down/Left/Right) and even zoom function. It converts any incoming VGA, SVGA, or XGA (1024×768) signal from a PC to a NTSC or PAL compatible video signal for displaying on any TV.

Features

- Plug and Play with no software setup
- Full button mouse control:
 - Up/Down/Left/Right
 - Zoom
 - NTSC/PAL switch
 - Reset
- Supports VGA input resolutions at:
 - 640×480, up to 85Hz refresh rate
 - 800×600, up to 85Hz refresh rate
 - 1024×768, up to 70Hz refresh rate
- Simultaneous Composite and S-Video outputs
- Advanced digital signal processing technology (VSPPro™) and FlicFree™ digital filter technology providing the crispest and most stable video display
- Power supply – PS/2 keyboard port, USB port or 5V DC Power Adapter

Input Connections

- VGA (Sub DB-15 port)
- PS/2 and USB connectors - power
- AC power adapter – 5V DC

Output Connections

- VGA (Sub DB-15 port) pass-through connector for PC monitor
- S-Video
- RCA Composite

Applications

- Multimedia teaching system
- Business demonstration and training
- Watch DVD-ROM movies, play PC-based games, surf the Internet on big-screen TVs
- Video Conferencing
- Bowling video device

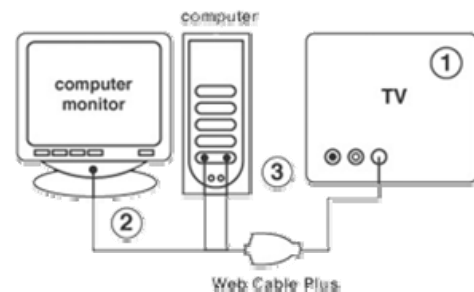

System Requirements

- IBM Compatible PC with DOS or any Windows O/S
- VGA output (640×480, 800×600, 1024×768)
- Available PS/2 or USB port for power, or use included AC power adapter
- Sound card optional but required for sending audio from computer to TV
- Video input device (TV, VCR, DVD) with RCA composite or S-Video A/V input ports

Installation is as easy as 1-2-3

No software drivers

1. Connect one end of the Web Cable Plus to the TV or display device
2. Connect the other end of the Web Cable Plus to your computer and monitor
3. Connect the Web Cable Plus PS/2, USB or AC power adapter and you are all ready to view everything from your computer screen on your TV. It's that easy!
